 - If your address is the same as your organization you may use the “**Copy Address from Organization**” button to automatically pull the address information from the organization address fields into the address fields in this section.
 - It is very important to note that the email address entered in the **email/username** field becomes the Applicant’s **Username** in the system.
- Once the fields on the “**User Information**” section are completed, click on the “**Next**” button.
 - Please note that should you need to navigate to previous section in the registration process, you must use the “**Previous**” button at the bottom of each section in order for the information entered in registration fields to remain intact. If you attempt to navigate to the previous section by using their browser’s “back” button you will lose all registration information entered..
- In the next section, please input the details of your affiliate president in the Executive Director section. This is not applicable if the affiliate president is the person writing the grant and is the primary user (above).

- Next, you will simply work your way through the form responding to the fields.

- As you complete the form, the system will auto-save every 100 characters typed or every time you click out of a field.
- You may collapse question groups as you go, once you've finished all of the questions in that group, as an indicator to yourself that you've completed that section and reduce scrolling time
- Some fields may have character limits.
 - Responses that are longer than the set limit will be saved, **but** an error message will appear informing the applicant the limit has been exceeded.
 - You will not be allowed to submit the form until the length of the response has been decreased in accordance with the limit.
- File **upload fields** will only accept one file, per field.
 - Upload fields have size limits.
 - If you attempt to upload a file that is larger than the set MiB limit, you will receive an error message informing the applicant that the file is too large and the file **will not** be saved.
 - Once a file has been uploaded, it may be **deleted** by clicking the **red X** next to the file name and a new file can be uploaded.
- Even though the system is auto-saving there is still a **"Save"** button at the bottom of the form.
 - When you click save you are taken to a confirmation page so you know the save was successful.
 - If you click **"Continue"** you will be taken back into the form so you can continue working.
 - If you save and exit the system, you will access the **draft of the form** from your **Dashboard** the next time you log in.
 - Pick back up where you left off by clicking **"Edit"** link to the right of the request.

- When all of the fields are complete, submit the application.
 - If any required fields were not completed, or a response to a text question type is longer than the set limit, the system will not allow the form to be submitted.
 - An error message appears listing the fields that need to be completed or edited.
 - These fields are outlined in red so they are easy to identify as the applicant scrolls through the form.
 - When a form is submitted successfully, the applicant will be taken to a confirmation page.
